RESOURCE MANAGEMENT COMMITTEE
JANUARY 21, 2015

**** NOT APPROVED ****

Committee Members Present: K. Graves, T. O'Grady, N. Ungermann, C. Crandall (Absent: D. Fanton, A. McGraw)

Others Present: M. Alger, L. Ballengee, L. Bliven, H. Budinger, S. Burt, C. Cavagna, P. Curran, D. Decker, L. Edwards, L. Gridley, D. Healy, K. Hint, R. Hollis, T. Hopkins, C. Jessup, K. LaForge, T. Miner, D. Pullen, B. Riehle, D. Root, T. Ross, C. Santora, S. Torrey, J. Wood

Media Present: D. Donohue, *Olean Times Herald*; B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator O'Grady, seconded by Legislator Ungermann, and carried to approve the Resource Management Committee minutes of December 17, 2014.

Re-Appointment of Legislative Members to Soil & Water Conservation District Board:

The Soil and Water Conservation District Board requested the reappointment of Theodore L. Hopkins of Fillmore and Karl Graves of Wellsville as Legislative Members of the Soil and Water Conservation District Board for a one-year term commencing January 1, 2015, and expiring December 31, 2015. There was some discussion regarding the appearance of impropriety by having a working farmer (Mr. Hopkins) on the Board. Legislator Hopkins assured the Committee that since he has been on the Board, he has not ever, nor does he plan to pursue, any grant funding for projects relevant to the Soil and Water Conservation District Board. Mr. Torrey told the Committee that the State requires farmers on the Board, and, thus, also requires strict reporting regarding the farmers' abstaining from certain votes. The appointments were approved on a motion by Legislator O'Grady, seconded by Legislator Crandall, and carried. ***Prepare Resolution***

Appointment of County Grange Member to Soil & Water Conservation District Board:

The Allegany County Grange requested the appointment of James Wilcox of Almond to replace Curtis Rung as the County Grange appointee on the Soil and Water Conservation District Board for a three-year term commencing January 1, 2015, and expiring December 31, 2017. The appointments were approved on a motion by Legislator O'Grady, seconded by Legislator Ungermann, and carried. ***Prepare Resolution***

County Historian
Monthly Report

County Historian Craig Braack was unable to attend the meeting.

Soil & Water Conservation
Monthly Report

Soil & Water Conservation Director Scott Torrey reviewed his report with the Committee. Highlights included that his office is doing a lot of paper work ("winter work") at this time of year. So, currently, it is planning to begin construction projects in the spring with Round 20 funding.

The Governor announced that $12 million will be available for Round 21 of the Ag Non-Point Source Grant funding. Grant applications are due March 31, 2015. He plans to submit three applications. He noted that generally, one-half of all applications in the state are approved for funding, and that Allegany County has done well the last few years. He went on to say that using Finger Lakes-Lake Ontario Watershed Protection Alliance (FL-LOWPA) funds, Soil and Water will help sponsor an Equine Management Workshop at Alfred University. One of the bigger projects for 2015 will be getting the box culvert design work done for the FEMA-funded project on George Road in West Almond. He noted that annual reports are being completed at this time as well. He added that the job description has been finalized for a District Technician positon which will be filled shortly. Some questions arose about the position. Mr. Torrey noted that the job description needed to be brought up-to-date in order to reflect the current needs of his area. Additionally, it was noted that this position is not a County position. Legislator Ungermann suggested that, pursuant to conversations he had had with some people from Cornell University, Mr. Torrey should pursue funding that seems to be available for the installation of wood chip filters at the end of tile lines which seem to reduce nitrates by half. Mr. Torrey said he would do so.

Youth Bureau
Monthly Report

Youth Bureau Director Linda Edwards noted the highlights from her December report. These included the completion of the OCFS billing for agencies and town/village recreation programs. She noted that Allegany County was recognized as one of two counties that have a zero balance. She said that on February 9 and 10, she will be taking four (of five) Youth Board members to Albany for the Youth Leadership Forum. They will meet our representatives during that time, as well as tour parts of the capital and attend workshops. She noted that this has been budgeted for. Finally, she noted that the Sheriff's Department will host the inaugural Dan Barkley Basketball Showcase on Saturday, January 24, at the Wellsville High School. (The event is named in memory of Barkley, who passed away due to a heart attack while making his rounds at the county jail in 2013.) There will be five games beginning at noon for an entrance fee of five dollars. Ten high school basketball teams from Allegany and Steuben counties will compete for bragging rights between the two counties. Proceeds will go toward high school students going on to college. Ms. Edwards added that there will be an athletes' exhibit there which is similar to the prescription drug exhibit of last year. Other agencies will be there with educational information as well, she said.

Cornell Cooperative Extension
Monthly Report

Cornell Cooperative Extension Agriculture & Natural Resources Issue Leader Lynn Bliven turned this month's update over to Colleen Cavagna, Cooperative Extension Community Educator. She noted that her position falls under the "Ag Umbrella" which includes a variety of areas. Ms. Cavagna distributed information on the activities in her area, including a list of 2014 programming conducted. Ms. Cavagna said that she has always worked with a two-pronged approach: working with Cornell University faculty who are doing the research which she then disseminates to locals who may need it. The second prong is our local people. Ms. Cavagna said she is always evaluating and polling locals to see what is needed/wanted. Additionally, she included a summary of upcoming programs for the remainder of January (YardWorks: A Landscape Design Opportunity and Be Green Organic Yards New York & Child Safe Playing Field Act on January 29, and a Pastry Workshop, January 31). Ms. Cavagna introduced Kylie Hint, a BOCES intern who worked with children and created a 30-45-minute program for third graders on trees. The presentation was also given in local libraries over the summer and

included “nature walks” to allow participants identify leaves in their natural state. Subsequently, Ms. Bliven distributed the January 2015 edition of “Extension Connection” which highlights some of the program offerings. She went on to update the Committee on the diseases that are affecting swine. (She noted that a second, similar virus was also beginning to affect swine.) Ms. Bliven said that bio security and sanitation are key to stopping the spread of these diseases. When asked, she said that the diseases are reasonably in check at this time.

Executive Session

The Committee entered executive session to discuss the employment history of a particular corporation at 1:25 p.m. on a motion by Legislator O’Grady, seconded by Legislator Ungermann, and carried. The Committee exited executive session at 2 p.m. on a motion by Legislator Ungermann, seconded by Legislator O’Grady, and carried

New Business

New Forest Economy, Allegany County

Because the meeting had run overtime, there was little discussion regarding the New Forest Economy. It was determined, on a motion by Legislator Ungermann, seconded by Legislator O’Grady, to direct the County Attorney to look into the agreement that Cattaraugus County has with RC&D (Resource, conservation, and Development) as it relates to the New Forest Economy Project. ***Refer to County Attorney’s Office***

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 2:03 p.m. following a motion by Legislator Ungermann., seconded by Legislator O’Grady, and carried.

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
FEBRUARY 18, 2015

**** NOT APPROVED ****

Committee Members Present: K. Graves, T. O'Grady, C. Crandall (Absent: D. Fanton, A. McGraw, N. Ungermann)

Others Present: L. Ballengee, L. Bliven, C. Braack, H. Budinger, S. Burt, P. Curran, D. Decker, K. Dirlam, L. Edwards, J. Foels, G. Hanchett, D. Healy, R. Hollis, L. Hunsberger, C. Jessup, K. LaForge, T. Miner, D. Pullen, B. Riehle, T. Ross, C. Santora, F. Sinclair, R. Sobeck-Lynch , J. Wood
Guest**:** L. Shilling

Media Present: B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator O'Grady, seconded by Chairman Crandall, and carried to approve the Resource Management Committee minutes of January 21, 2015.

DEPARTMENTAL REPORTS

County Historian
Monthly Report

County Historian Craig Braack told the Committee that he had little to report as he had been on vacation most of the month. He said that he had heard "scuttlebutt" that the old building would be coming down soon, and he was happy for that. He added that the new facility was coming along nicely.

Soil & Water Conservation
Monthly Report

Soil & Water Conservation Executive Director Scott Torrey was unable to attend the meeting, but sent along a written report which included the following information:

1. Program Updates:
    - Round 21 Ag Non-Point Source Grant
        - Grant application is due March 31, 2015
        - Currently meeting with farms to discuss grant projects.
    - FL-LOWPA
        - Finishing 2012-2013 FL-LOWPA grant. This closeout is due March 31, 2015
2. Technical Assistance:
    - Working on engineering for 2015
    - Working on soil group worksheets
3. General
    - Annual reports for both the State and County have been completed.

Youth Bureau

Monthly Report

Youth Bureau Director Linda Edwards highlighted some areas on her pre-filed monthly report, including her attendance at the Allegany County Counselors' Classic Basketball Tournament at Houghton College in January as well as at the Dan Barkley Basketball Showcase, also in January. The Youth Bureau was a sponsor of both events. On a disappointing note, Ms. Edwards said that the annual Youth Leadership Forum in Albany scheduled for February had been cancelled because of the weather. The students were disappointed, she said, but the parents were relieved that risky travel had been avoided.

Youth Board Appointments

At the February 23, 2015, Board meeting, the Chairman of the Board will appoint the following as (adult) members of the Allegany County Youth Board for term expiring as listed, subject to confirmation by the Board of Legislators:

Jessica Jennings, District I, Re-Appointment, (term expiring March 25, 2018)
Kelly Goble, District II, New Appointment, (term expiring March 25, 2018)
Jack Emrick, District III, Re-appointment, (term expiring March 25, 2018)
Michele Henry, District IV, Re-appointment, (term expiring March 25, 2018)
Vicky Westacott, District V, Re-appointment, (term expiring March 25, 2018)

The appointments were approved on a motion by Legislator Graves, seconded by Legislator O'Grady, and carried. ***Prepare Resolution***

Cornell Cooperative Extension

Monthly Report

Cornell Cooperative Extension Agriculture & Natural Resources Issue Leader Lynn Bliven distributed a document highlighting upcoming programs. These include Farm Disaster Preparation Certificate Training, the Annual Winter Grazing Conference in Western New York, and Winter Dairy Management 2015—Increase Milk Components Profitably. When asked how the extreme cold had affected the work of Cooperative Extension, Ms. Bliven noted that they are receiving more animal welfare calls than usual. However, she said, the site of herds in the fields covered in snow is a good thing. Because the snow is not melting on the animals, it means they are insulated from the cold.

Attorney/Client Session

The Committee entered attorney/client session at 1:10 p.m. on a motion by Legislator Graves, seconded by Chairman Crandall, and carried. The Committee exited attorney/client session at 1:45 p.m. on a motion by Legislator Graves, seconded by Chairman Crandall, and carried.

New Business

Radioactive Waste Disposal

Former Legislator Frederick Sinclair attended the meeting and distributed copies of the front pages of several recent studies regarding radioactive materials which provide sufficient information for those who are interested to "Google" the reports ["Technologically Enhanced Naturally Occurring Radioactive Materials (TENORM) Study Support for the Pennsylvania Department of Environmental Protection"; "Compendium of Scientific, Medical, and Media Findings Demonstrating Risks and Harms of Fracking [Unconventional Gas and Oil Extraction", 2nd edition; and "Radioactivity in Marcellus Shale", Report Prepared for Residents for the Preservation of Lowman and Chemung]. Mr. Sinclair noted that the Allegany County Grange had submitted a resolution regarding Marcellus Shale Fracking Fluid which called for County lawmakers to pass legislation banning the importation of fracking fluid as well as requiring

treatment plants to clean up contamination at their facilities caused by radioactive waste. Noting that no representatives from the Grange were present, Mr. Sinclair, as Chairman of the Concerned Citizens of Allegany County (CCAC) presented the case for having Allegany County take an official stance against accepting this waste stream, saying that it has been "mischaracterized" and that he and his organization would like to see proper characterization of this waste because it has hazardous components. He also offered CCAC members who would work with County officials to look into these issues, to navigate through and find the pertinent data. Casella Regional Vice President Larry Shilling addressed the Committee, saying that if one were to review the Pennsylvania study (referenced above), the conclusions indicate that the drill cuttings are low, and not an issue. If one were to review the report co-authored by Marvin Resnikoff, PhD, he would want to consider the findings cautiously, as Dr. Resnikoff's courtroom testimony has been removed from the record as an expert "because he makes up his own kind of science." Mr. Shilling said his company has spent a lot of money trying to learn the truth about this, and it has been done in cooperation with the DEC. He also said they have voluntarily installed detectors, voluntarily required this kind of material to be profiled, and they do not exempt the gas and oil from the hazardous waste rules. He went on to say that the Hyland Landfill does not accept Pennsylvania "sludge" which is the material that causes detectors to go off. He insisted that Hyland does not accept hazardous waste, and in fact, has not accepted any oil or gas waste for over a year. Legislator Graves concluded the discussion by indicating that the Committee would take all these issues under advisement before moving forward with any decisions.

Bioprocessing Education Research & Development Center (BERDC)

Chairman Crandall told the Committee that this issue is an ongoing follow-up to the presentation made to the Committee of the Whole. However, he felt it would be more beneficial if the entire Resource Management Committee were in attendance before any significant discussion and/or decisions were made. He added that earlier in the month he and Legislator Graves and County Administrator Mitch Alger had met in Albany with rep from governor's office, Senate Finance, Alfred State President Skip Sullivan, looking to move this project ahead looking at state funding, AC is certainly a partner (of many) that would be part of helping to make this project happen and this would take place at Wellsville Campus of Alfred State, there is interest regionally, outside of Allegany County, looking at potential commercial operation once the R&D piece is put into place at Alfred. Mr. Crandall went on to say that pursuant to a brief meeting with the Governor, he had sent a letter to the Governor's Office. They had responded, looking for additional, detailed information. He added that we would continue to provide information to the Governor's Office and that the topic would remain on the agenda to keep Committee members updated as the project progresses.

<u>Good of the Order</u>

Hazard Mitigation Meeting Minutes

These were included as an "FYI" for Committee members.

<u>Adjournment</u>

There being no further business to come before the Committee, the meeting was adjourned at 2:03 p.m. following a motion by Legislator O'Grady, seconded by Chairman Crandall, and carried

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
MARCH 9, 2015
SPECIAL MEETING

**** NOT APPROVED ****

Committee Members Present: K. Graves, N. Ungermann, C. Crandall (Absent: D. Fanton, A. McGraw, T. O'Grady)

Others Present: H. Budinger, P. Curran, D. Decker, D. Healy, T. Hopkins, C. Jessup, T. Miner, B. Riehle, T. Ross, C. Santora

Media Present: No media present

Call to Order: The meeting was called to order at 12:30 p.m. by Resource Management Committee Chairman Karl Graves.

Bioprocessing Education Research & Development Center (BERDC)

A brief discussion of the benefits of entering into a contract with Seneca Trail Resource Conservation and Development Council to have that entity assist Allegany County with management of the County's resources occurred. [The information that follows in brackets is adapted from the Allegany County Committee of the Whole, January 12, 2015. It seems that because of mill closures and contractions, a new forest economy becomes necessary. This is an alternative approach, re-establishing the heritage supply chain of 100 years ago into a modern context, reclaiming underutilized sites and mills. The biorefinery would utilize a different segment of the same market that the paper industry thrived on. "The New Forest Economy" process consists of extracting chemicals from wood chips to create a wide variety of products. The extraction process removes chemicals, sugars, cellulose, and other products from wood chips. One product produced in this manner is a wood pellet that is able to reject water. These wood pellets wouldn't have to be packaged as they currently are in plastic bags. Additionally, the burning of the pellets is more efficient as they burn hotter and produce less ash. Electricity and heat would also be created during the process which could be used to heat greenhouses, villages, industrial parks, or subdivisions. The Wellsville Campus of Alfred State was chosen as a site to develop the research facility because it can serve as a research facility, offer educational opportunities, and promote industrial tourism.]

Chairman Crandall indicated that Allegany County will be one of many partners in this venture and that our contribution, although it will not make or break the operation, will certainly help keep the studies on track. He reminded the Committee that Cattaraugus County had already entered into an agreement with Seneca Trails. Allegany County is proposing entering into an agreement with Seneca Trails for a period of three years, with $25,000 to be paid to Seneca Trails for each of the three years. Although the 2016 and 2017 payments can be budgeted, the payment for 2015 must come out of Contingency.

Legislator Ungermann remarked that the EPA has new regulations on outdoor wood boilers, and a lot of that firewood is not marketable timber. He feels something has to be done with that wood because he would hate to see it go to waste. He noted he is in favor of anything we can do to make us a little greener. Legislator Graves noted that Senator Young is supportive of this initiative.

County Attorney Tom Miner indicated that the contract provides for Seneca Trails to assist Allegany County to enter into the new forest economy. A resolution authorizing a three-year contract with the Seneca Trail Resource Conservation and Development group and authorizing a transfer of $25,000 from A1990.429 (Contingency) to A8710.499 (County

Reforestation-Contractual) to finance the agreement was supported on a motion by Legislator Graves, seconded by Legislator Ungermann, and carried. The resolution will come off the floor at today's Board meeting. ***Prepare Resolution***

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 12:40 p.m. following a motion by Legislator Ungermann, seconded by Legislator Crandall, and carried

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
MARCH 18, 2015

**** NOT APPROVED ****

Committee Members Present: K. Graves, D. Fanton, N. Ungermann, C. Crandall (Absent: A. McGraw, T. O'Grady)

Others Present: M. Alger, L. Ballengee, H. Budinger, S. Burt, L. Edwards, D, Healy, R. Hollis, T. Hopkins, L. Hunsberger, C. Jessup, T. Miner, D. Pullen, B. Riehle, D. Root, T. Ross, A. Santangelo, C. Santora, S. Torrey, J. Wood

Media Present: D. Donohue, *Olean Times Herald*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Ungermann, seconded by Legislator Graves, and carried to approve the Resource Management Committee minutes of February 18 and March 9, 2015.

County Historian

County Historian Craig Braack was not in attendance.

Soil & Water Conservation
Monthly Report

Soil & Water Conservation Director Scott Torrey distributed his March report which included the following information:

SWCD is working on getting projects ready to go for the construction season. It has several projects lined up thus far and will be adding to the following list as the spring progresses:

- 1 bedded pack barn
- 3 concrete box culverts
- 1 bunk silo project
- 1 concrete barnyard
- 1 manure handling system
- several fence projects

Additionally, SWCD is finishing grant applications for Round 21 of the State Ag Non-Point Source funds that are due March 31. Grant applications will total between $750,000 and $1 million. Grants are in the following watersheds: Angelica Water Supply, Rushford Lake, and the Genesee River upstream of the Wellsville water intake. SWCD will be applying for grant funds through The Great Lakes Sediment and Nutrient Reduction Program. Applications are due April 24 and will focus on reducing phosphorous going into the Great Lakes. Late this spring or early summer, the State will be releasing $500,000 of grant funds for the Genesee River Basin. Funds will be used for erosion reduction.

Cornell Cooperative Extension
Monthly Report

Cornell Cooperative Extension Allegany County Community Educator, Field Crops and Soil Science, Aaron Santangelo reported on several programs currently being conducted by

Cooperative Extension. These included the following: This is National Ag Week, and today (March 18) National Ag Day. Each year, in celebration of National Agriculture Week/Ag Literacy Week, volunteers throughout the state read a book with an agricultural theme to second graders. Students and teachers benefit from hands-on lessons and receive follow-up activities. This year focuses on sheep production in New York State. This is being coordinated by Colleen Cavagna, Allegany County Community Educator, Horticulture. Master Gardener Training (a program that utilizes volunteers to assist people and their communities through gardening information, education, and activities) has 10 new master gardeners being trained for Allegany County. (This is more help to people seeking information than simply going online for generic information.) 4-H gave a public presentation, held a livestock skill-a-thon, and last weekend, held a Dairy Bowl (quiz bowl). The Belmont winners will go on to compete at the state level. The District Horse Bowl will be held March 21; Allegany County has 16 participants. Because planting season is almost upon us, Cooperative Extension is hosting two planter workshops in the County. Cooperative Extension had held a meeting in Centerville for vegetable producers; there were over 70 attendees. There will be a "Who's Going to Fill Your Farm Shoes" session to help farm owners with transition/succession planning. When asked, Mr. Santangelo said that the Amish also use the Cooperative Extension services for help and information with production.

Cornell Cooperative Extension Executive Director Laura Hunsberger told the Committee that a Transition Committee has been formed within the Board of Directors to take care of the unusual aspects of the dissolution of the two-county association. At the next Board meeting, they will likely approve a new constitution that can be voted upon by the association as a whole and are scheduling a special meeting to dissolve the association, re-forming as just CCE Allegany, determine a new Board of Directors, and vote on committee appointments. Legislator Pullen urged any resident in the County and/or anyone who has participated in an Extension program to attend the special meeting (tentatively scheduled for May 19) and participate in the vote because it is a major transition and he believes the more participation, the better.

Youth Bureau

Monthly Report

Youth Bureau Director Linda Edwards highlighted several items on her monthly report, including the following: the Youth Leadership Forum in Albany on February 9 and 10 but the Forum was cancelled due to the weather and will not be rescheduled. Information was sent to Senator Cathy Young and Assemblyman Joe Giglio regarding Youth Bureau funding in the 2015 budget. Also, Jacy Good and her husband Steve Johnson did presentations on Distracted Driving in local schools; presentations were held in Scio and Belfast Central Schools; presentations in Bolivar-Richburg and Genesee Valley were cancelled due to schools being closed due to the weather. She is working on scheduling presentations next year for additional schools as well as a public presentation. She noted that Jacy and Steve were amendable to this plan. The Youth Board Dinner will be held Thursday, April 29; invitations have been sent out as have been solicitations for the Youth Recognition Awards. She awaits the nominations.

Executive Session

The Committee entered executive session to "consider the terms and conditions of a particular employee" at 1:22 p.m. on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried. The Committee exited executive session at 1:43 p.m. on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:44 p.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
APRIL 15, 2015

**** NOT APPROVED ****

Committee Members Present: K. Graves, D. Fanton, N. Ungermann, C. Crandall (Absent: A. McGraw, T. O'Grady)

Others Present: M. Alger, S. Alsworth, L. Bliven, H. Budinger, S. Burt, R. Chamberlain, D. Decker, K. Dirlam, L. Edwards, L. Gridley, G. Hanchett, D. Healy, R. Hollis, T. Hopkins, L. Hunsberger, C. Jessup, K. LaForge, T. Miner, B. Riehle, T. Ross, C. Santora

Media Present: No media present

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Fanton, seconded by Legislator Ungermann, and carried to approve the Resource Management Committee minutes of March 18, 2015.

County Historian

County Historian Craig Braack was not in attendance at the meeting.

Soil & Water Conservation

Monthly Report

Allegany County Soil and Water Conservation District AEM Planner Scott Alsworth attended in Scott Torrey's stead and distributed the District's April report. This included application submissions for Round 21 of the State Ag Non-Point Source funds in the following watersheds: Angelica Water Supply, Rushford Lake, and upstream of the Wellsville Water Intake. They expect to be notified of any awards by mid-summer. Additionally, the District will submit grant applications for the Genesee River Erosion and Sediment Control Implementation Grants. The District is finishing Year 10 of the Agricultural Environmental Management Grant; Year 11 begins May 7. The money received from this grant covers employee time and expenses to work with farms in improving their environmental impact. Construction projects are slated to begin mid-May.

Weir Lot Contract Extension

Mr. Alsworth went on to say that Rob Chamberlain would like a contract extension for his work on the Weir Lot. [Note, in July 2014, the County had received three bids on the Weir Lot. At that time, Soil & Water Conservation Director Scott Torrey recommended accepting the bid from R.T. Chamberlain Logging and Trucking of Belfast, NY, for $81,001.99.] Mr. Chamberlain indicated he would like to have the contract extended to encompass all of summer 2016. Chairman Crandall indicated that this issue would go to the full Board as an amendment to a contract. Approval to extend the contract through the summer of 2016 was granted on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried. ***Prepare Resolution***

Youth Bureau

Monthly Report

Youth Bureau Director Linda Edwards noted that March had been a busy month, and she wanted to highlight the following: she attended Western New York Association of Youth

Bureaus meeting in Lancaster; participated in Bureau of Youth Development (BYD) Regional Conference Call; attended PPAC (Partners for Prevention in Allegany County) quarterly meeting; attended Youth Court Board meeting; held quarterly Youth Board meeting on March 25; and began preparations for Youth Board Dinner and Youth Recognition Awards. She noted that all Committee members had been invited to the Youth Board Dinner scheduled for April 29, and that RSVPs are due by April 22. She said that in addition to recognizing five youths from Belmont, Scio, Hume, Wellsville, and Bolivar, the Legion Riders would also be recognized for hosting a picnic on Cuba Lake for the past five years for those in foster care.

Cornell Cooperative Extension
Monthly Report

Cornell Cooperative Extension Agriculture & Natural Resources Issue Leader Lynn Bliven updated the Committee on recent programming, including a Farmers' Market Network education program, held in conjunction with Southern Tier West, among Allegany, Cattaraugus, and Chautauqua counties which focused on best management practices in food safety. Later this month, a similar program will be held for meat producers on how they process their products and how they communicate with the consumer. The other issue Ms. Bliven focused on is animal disease. Last year, she noted, we focused on viruses affecting swine; this year a highly pathogenic avian influenza is an issue for concern. Thus far, NYS has not seen this virus in its fowl, but it is spread via migratory birds, so Extension is working diligently to get the word out as well as information on biosecurity as well as transportation of poultry. At this time there is no concern for public health, she added. There will be a four-part workshop series in May and June for backyard poultry producers and beginning farmers in poultry production, emphasizing biosecurity and other issues.

Cornell Cooperative Extension Executive Director Laura Hunsberger updated the Committee on the status of the special meeting to be held at 6 p.m. on May 19 at Our Lady of the Angels Church in Cuba. She indicated they needed at least 25 people to be in attendance. At that time, the two-County association will be dissolved, re-forming the one-County association, voting on the new Constitution, and voting in new Board members. These changes will go into effect October 1, 2015.

Ms. Hunsberger noted that Cooperative Extension is holding a fundraiser on June 13, at Island Park in Wellsville. It will be a family friendly event which includes a 5K, animal activities, vendors, and music by Steel Door.

Legislator Decker inquired about the status of the audit that had been requested by Cattaraugus County. He was told that the audit had been cancelled because other audits had already been done on the timeframe Mercer had been asked to review, and their findings were the same as the previous audits. That being the case, Cattaraugus County put a stop to the audit.

Executive Session

The Committee entered executive session to discuss the employment history of a particular individual at 1:25 p.m. on a motion by Legislator Ungermann, seconded by Legislator Fanton, and carried. The Committee exited executive session at 1:34 p.m. on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:35 p.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
MAY 20, 2015

**** NOT APPROVED ****

Committee Members Present: K. Graves, D. Fanton, N. Ungermann, C. Crandall (Absent: A. McGraw, T. O'Grady)

Others Present: M. Alger, L. Ballengee, L. Bliven, C. Braack, H. Budinger, S. Burt, D. Decker, K. Dirlam, L. Drake, L. Edwards, G. Hanchett, D. Healy, R. Hollis, T. Hopkins, L. Hunsberger, G. James, T. Miner, B. Riehle, D. Root, T. Ross, C. Santora, S. Torrey

Media Present: No media present

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Fanton, seconded by Legislator Ungermann, and carried to approve the Resource Management Committee minutes of April 15, 2015.

County Historian

County Historian Craig Braack had nothing to report at this time.

Soil & Water Conservation
Monthly Report

Soil & Water Conservation Department Executive Director Scott Torrey gave a brief update which included the following items:

- Genesee River Erosion and Sediment Grant—submitted eight grant applications
- Southern Tier Agricultural Industry Enhancement Program—Mr. Torrey will attend a meeting for this opportunity on May 21 to wee what role soil & Water will play
- SWCD is working with the Towns of West Almond and Allen to implement FEMA projects
- Cuba won the Envirothon Competition and will go to the State competition
- SWCD completed a fencing project I the Town of Andover in the last month.

Cornell Cooperative Extension
Monthly Report

Cornell Cooperative Extension Agriculture & Natural Resources Issue Leader Lynn Bliven updated the Committee on recent developments regarding the virulent avian flu, saying that because all poultry breeds are susceptible, and because the flu is so virulent, New York State recently decreed that there will be absolutely no poultry exhibited at any County Fair or at the State Fair this year. She added that although there have been no confirmed cases of the avian flu in NYS thus far, that does not mean it's not here. Cooperative Extension continues to work with producers on bio security issues to help stop this disease. Ms. Bliven went on to say that the "Living in the Country" brochure is being updated. This is a piece that educates people

about what to expect in an agricultural community. This piece has been distributed to realtors in the past. Ms. Bliven went on to say that Aaron Santangelo has tendered his resignation and will be finished by the end of May. Legislator Burt inquired about Alma Pond which, he said, had a strong odor of and plenty of evidence of dead fish. Ms. Bliven responded that Alma Pond is very shallow and it's possible that because of the very cold temperatures this winter, there may very well have been a 100 percent kill. He went on to ask if/when the DEC re-stocks the ponds. County Planner Kier Dirlam indicated that occurs in early spring and suggested Mr. Burt call the fish section of the DEC in Allegany for direction.

Cooperative Extension Executive Director Laura Hunsberger informed the Committee that the special Cooperative Extension meeting had been held the night before and the vote had been unanimous to amend the constitution. The new name of the organization is now CCE (Cornell Cooperative Extension) Allegany which will become official on October 1, 2015.

Youth Bureau Director

Monthly Report

Youth Bureau Director Linda Edwards entertained questions/comments on her pre-filed monthly report. Receiving none, she went on to highlight the Youth Board Dinner and Youth Award Recognition on April 29. She said it boasted the highest attendance (77!) in history. Awards were presented to five youth, one graduating senior who will be leaving the Youth Board, and the Wellsville Legion Riders and the Davison Family for hosting a Youth Fun Day at Cuba Lake. The she moved on to her action item.

Accept and Appropriate the 2015 Youth Development Program Allocations from the NYS Office of Children and Family Services

Ms. Edwards requested a resolution to accept and appropriate the 2015 Youth Development Program Allocations from the NYS Office of Children and Family Services in the amount of $50,679. Ms. Edwards added that the Houghton College STEP Program is not doing the program this year, (which was just over $3,700), so she allocated that money into the town and village rec program. The funds should be appropriated as summarized on the attached sheet.

Pass thru Programs from OCFS to agencies	$20,444
Allegany County Sponsored Programs	$17,656
Pass thru Programs from OCFS to Towns/Villages	$12,579
Total for Program is $50,679	

Approval of the request was granted on a motion by Legislator Fanton, seconded by Legislator Graves, and carried. ***Refer to Ways & Means***

New Business

Hazard Mitigation Team

County Planner Kier Dirlam, Superintendent of Public Works Guy James, and Soil & Water Conservation District Executive Director Scott Torrey addressed the group, saying that it was time to update the 800+-page Hazard Mitigation Plan. Mr. Dirlam told the Committee that although Emergency Management and Fire Services Director Jeff Luckey has applied for a $90,000 grant (which would require a $30,000 County match) that would allow for us to hire a consultant to assist in this update, he has not yet been notified of any award. That being said, Mr. Dirlam went on to say that the Team would still require that $30,000, whether we get the grant or not, in order to get the revision done by the August 2016 deadline. One of the benefits that hasn't been fully realized by this plan, he added, is that when there are events across the

State you can take advantage and get some of your projects fixed up ahead of time before another bad event occurs. We're thinking that if we can put this on a "steady" diet of having money allocated every year, then we could pay for a part of a person to keep current with projects, write the grants, and help the towns and villages. Mr. Dirlam added that the return on our investment would probably be quite large for that amount, saying we would probably be getting back hundreds of thousands of dollars. each year in those projects, so while they might not be "County" projects, *per se*, they would certainly benefit the County as a whole. Mr. James added that the best place for the position would be in Soil and Water. That being said, the Board would see an increase in Mr. Torrey's 2016 Budget request for this increase. Mr. James added that this initiative goes hand-in-hand with this shared services effort New York State is pushing. Granted, he said, "we've already done it before, but it's a continuation of what we've been doing, and as Kier said, it's a win-win because our initial investment could multiply considerably. It is important for this to be out there now because we are into the budget process for next year, and we need to get people thinking about it. It is required, and we do need to do it. If the Towns and Villages do not adopt our Hazard Mitigation Plan, they are not eligible for this mitigation money. But the County has to adopt it first. Mr. Dirlam added that these are monies allocated to deal with issues municipalities know are issues ahead of time, not during an actual event. For example, he said, you know there are culverts that are undersized, and when we do have a flood event, it will be a problem, so they need to be upgraded. This is the kind of money allocation that allows you to do that when the weather is nice rather than during the event. And, he said, that's what this coordinator would do: find the projects that fit, and help municipalities get the process done to get the money to help with their projects. It was determined that although the proposed $30,000 would be needed some time later this year, there was no need for action at this time.

Executive Session

The Committee entered executive session to discuss the employment history of a particular person at 1:35 p.m. on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried. The Committee exited executive session at 1:50 p.m. on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:50 p.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried.

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
JUNE 17, 2015

**** NOT APPROVED ****

Committee Members Present: K. Graves, D. Fanton, N. Ungermann, C. Crandall (Absent: A. McGraw, T. O'Grady)

Others Present: M. Alger, C. Braack, S. Burt, D. Decker, L. Edwards, L. Gridley, D. Healy, T. Hopkins, L. Hunsberger, C. Jessup, C. Knapp, K. LaForge, T. Parmenter, B. Riehle, D. Root, T. Ross, C. Santora, R. Sobeck-Lynch, S. Torrey

Media Present: D. Donohue, *Olean Times Herald*; B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Fanton, seconded by Legislator Ungermann, and carried to approve the Resource Management Committee minutes of May 20, 2015.

Acceptance of Funds for Snowmobile Federation

Allegany County acts as a pass through for the Allegany County Federation of Snowmobilers for snowmobile trail development and maintenance assistance grants funded by the New York State Office of Parks, Recreation, and Historic Preservation. The 2014-15 application was approved for $95,865 (based on mileage and high snow). Sufficient funding was appropriated in the 2015 Budget to A7185.3089. No budget needed for 2015 as there is no required County share. This Grant is a renewal of an existing grant-funded program. The major benefits of accepting this grant are the development, grooming, and maintenance of the snowmobile trails in Allegany County. The funds should be appropriated as follows:

Revenue ($95,865)

A7185.3089.00 (AC Snowmobile Association-St Aid)	$95,865

Appropriation ($95,865)

A7185.4.83 (NYS OPRHP Funding Award)	$95,865

Approval was granted on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried. ***Refer to Ways & Means***

County Historian

County Historian Craig Braack had nothing to report this month.

Soil & Water Conservation

Monthly Report

Soil & Water Conservation Executive Director Scott Torrey distributed his monthly report, saying that there is not much to report this month as his office is primarily working on design work and construction projects at this time. He added that he included, in his report, a list of Hazard Mitigation funding over the years. The total dollar amount for the listed projects was $4,088,125, with the federal share being $3,066,095 and the local share $1,022,030.

Soil & Water Three-Year Contract Request

Mr. Torrey then went on to request a three-year contract extension between the County and the Soil and Water Conservation District. The current contract is set to expire on December 31, 2015. This year is the ninth year under this format.

According to the request, "Maintaining a long-term financial obligation from the County is very important to the long-term success of the Conservation District and its relationship, not only with the County, but also with the residents, municipalities, and farms of the County. Many of our grant commitments are multiple years in length. The Agricultural Nonpoint Sources funds that the District receives from the State of New York are under a three-year contract that can go to five years. The FL-LOWPA grant funding operates on a two-year contract basis."

Mr. Torrey's calculations noted that for each County dollar invested in the SWCD returns, on average, $4.60.

Along with grants and commitments, the SWCD also provides technical service to the residents and municipalities of the County. Without the financial support of the County SWCD will not be able to provide these services. Having a three-year contract in place with the County to provide financial support to the District is invaluable when trying to manage all of its different commitments. It helps maintain quality staff which results in more projects being completed.

The following amounts are requested for each year of a new contract with the County:

2016-17: level funding ($136,000)
2017-18: 1.5 percent increase ($138,000)
2018: 1.4 percent increase ($140,000)

The request for the contract renewal was approved on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried. ***Refer to Ways & Means***

Following the vote, Legislator Ungermann inquired if SWCD had outside help writing the grants. Mr. Torrey replied that he did the grant writing himself.

Youth Bureau

Monthly Report

Youth Bureau Director Linda Edwards told the Committee that although it was listed on her monthly report, she wanted to highlight her attendance at the Youth Bureau Directors' Training in Saratoga Springs, May 26-28, which provided training and information from the State.

Approval of the 2015 Resource Allocation Plan Agreement with the Office of Children and Family Services

The Youth Bureau requested a resolution approving the 2015 Resource Allocation Plan agreement with the Office of Children and Family Services in relation to the State's allocation of funds to the County for providing youth services under its Comprehensive Youth Services Plan. We request that the Chairman of the Board be authorized to execute such Plan Agreement. A portion of the funds to be received under such Plan Agreement shall be appropriated from time to time to cover the costs under sub-contractor services provider agreements as may be approved by this Board. The fiscal impact: 100% State Aid. Approval was granted on a motion by Legislator Fanton, seconded by Legislator Graves, and carried. ***Refer to Ways & Means***

Cooperative Extension

Cooperative Extension Executive Director Laura Hunsberger re-introduced Tom Parmenter, Dairy Educator for Allegany County, to the Committee. He distributed flyers regarding the second annual Allegany County Farmer-Neighbor Dinner to be held Wednesday, September 23, 2015, at the Amity Rescue Squad Hall, 5184 State Route 244, in Belmont. The dinner begins at 5:30 with a taste of local farms and exhibits. The dinner will be comprised of Allegany County-grown and produced food at 6:45 p.m. The guest speaker will be Chris Fesko who will talk about Farmer-Neighbor Communications. Legislator Ungermann inquired whether

there is a way to encourage the larger farm operators and food producers to attend. Ms. Hunsberger replied that they all get invitations. Mr. Parmenter went on to say that beginning next week, the annual Tractor and Machine Safety Certification Course would run for three days, June 24-26, from 8:30 a.m. until 4 p.m. Over 300 participants have completed the course over the years (records go back to 1999, but the program has been in existence longer than that, according to Cooperative Extension), and to the best of his knowledge, not one of them has been involved in a farm machinery-related accident. Youth from 14-16 are the primary attendees, but younger students can also attend.

Ms. Hunsberger went on to say that Cooperative Extension had hosted a Post-Harvest Handling of Vegetables for Market Program on June 11 on how to design, build, and operate a small-scale, DIY post-harvest handling system to help producers with food safety, maintenance of quality and efficiency, and affordability for new and small growers. Ms. Hunsberger went on to say that approximately 1,000 day-old pheasants had been delivered recently for the 4-Hers to raise and release. Ms. Hunsberger said that Cattaraugus County 4-H had hired Amanda Dackowski to help out during the summer of 2015. She added that she would be distributing the latest newsletter that has gardening tips for those looking for weed management advice, information about Hog Wild Day (an opportunity to win a freezer-ready processed pig), and information on avian influenza and how it's affecting the market birds for the Fair this year. She went on to say she had recently received information from the International Labor Relations Department (ILR) Program about Strong Families, Strong Leaders. ILR would like community leaders to attend. She put flyers regarding this program in the Legislative mail boxes. Ms. Hunsberger said they had recently applied for an ARC grant to join with schools in order to cooperatively offer career skill/life skill training that needs to be done for youth that's really not being done in the schools. With all the Common Core Curriculum requirements, a lot of these "soft skills" are falling through the educational cracks. Ms. Hunsberger noted that Wellsville is moving forward with the Complete Streets program and that there had been an article in the *Wellsville Daily Reporter* the previous day. The grant program offers $3,000 to a town that will add complete streets lingo to its Strategic Plan. The money will probably go toward signage or something like that, she said. Finally, Ms. Hunsberger said she would be attending a program in Syracuse on Monday about the workforce needs of the food processing industry.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:28 p.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
JULY 15, 2015

**** NOT APPROVED ****

Committee Members Present: K. Graves, D. Fanton, N. Ungermann, C. Crandall (Absent: A. McGraw, T. O'Grady)

Others Present: M. Alger, L. Ballengee, L. Bliven, C. Braack, H. Budinger, D. Decker, K. Dirlam, D. Healy, R. Hollis, T. Hopkins, C. Jessup, K. LaForge, T. Miner, B. Riehle, T. Ross, C. Santora

Media Present: No media present

Call to Order: The meeting was called to order at approximately 1:03 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Fanton, seconded by Legislator Ungermann, and carried to approve the Resource Management Committee minutes of June 17, 2015.

County Historian

Monthly Report

County Historian Craig Braack was in attendance at the meeting, saying he had nothing to report at this time.

Soil & Water Conservation

Monthly Report

Soil & Water Conservation Executive Director Scott Torrey was unable to attend the meeting as he was out assessing damage caused by the previous night's storm.

Cornell Cooperative Extension

Monthly Report

Cornell Cooperative Extension Agriculture & Natural Resources Issue Leader Lynn Bliven gave a brief summary of Cooperative Extension activities, saying that the Fair is in progress and is going well. However, last evenings heavy rains had flooded some of the barns. She added that this summer's weather has affected the growing season...the wet conditions being ideal for insects and diseases among the crops. She also said she has been fielding a lot of questions about ponds from residential pond owners, regarding winter kill and weed control. Ms. Bliven said that Cooperative Extension would be hosting two vegetable meetings next week: one on pesticides and the other on organic management. Following her report, Committee members lobbed several questions at Ms. Bliven regarding organic pesticides, whether we in NYS consider soil temperature during planting season, what is keeping pea plants from producing fruit, etc. There was also some discussion on invasive vegetation species

and Ms. Bliven directed interested parties to the Cornell Cooperative Extension website for additional information.

Youth Bureau

Monthly Report

Youth Bureau Director-Linda Edwards was unable to attend the meeting as she was manning the Traffic Safety Booth at the Allegany County Fair. However, her report was attached to the meeting agenda.

New Business

Clerk of the Board Brenda Rigby Riehle stated that it is time for Soil and Water Conservation District to review Ag District #1. Although there are several formal actions that need to be taken, there was no need to take action at this time. She added that there is a 300-day timeline being constructed by Mr. Torrey to handle this review.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:18 p.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
AUGUST 19, 2015
NOT APPROVED

Committee Members Present: K. Graves, T. O'Grady, N. Ungermann, C. Crandall (Absent: D. Fanton, A. McGraw)

Others Present: M. Alger, S. Alsworth, L. Ballengee, L. Bliven, H. Budinger, C. Braack, S. Burt, L. Edwards, D. Healy, R. Hollis, T. Hopkins, L. Hunsberger, C. Jessup, K. LaForge, T. Miner, D. Pullen, B. Riehle, D. Root, T. Ross, C. Santora, S. Torrey

Media Present: D. Donohue, *Olean Times Herald*; B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Ungermann, seconded by Legislator O'Grady, and carried to approve the Resource Management Committee minutes of July 15, 2015.

County Historian

County Historian Craig Braack had nothing to report.

Soil & Water Conservation

Monthly Report

Soil & Water Conservation Director Scott Torrey distributed a report for August 2015 which included the following information:

SWCD has been awarded $40,000 in grant funds from the State for the Genesee River Erosion and Sediment Control Grant. This will consist of four projects on four farms. Total cost of the four projects is estimated at $60,295.

SWCD has been chosen to administer grant funds secured by NYS Senator Cathy Young's office. SWCD will be receiving a total of $155,000. $100,000 will be used for dredging on Cuba Lake; $25,000 will be used for a boat wash station on Rushford Lake; and $30,000 will be used for dredging and debris removal on streams in the County.

SWCD recently received the unofficial ranked list for Round 21 of the Ag Non Point Source Grant funding. If the ranking stays as it currently is, SWCD will be the recipient of two grants. The State funding provided will be $734,678. Total estimated cost of the grants will be $1,034,120.

The County's Agricultural and Farmland Protection Plan will need its 10-year update done in 2016. SWCD is currently looking at the grant funding available for this update and may need the County to apply for this funding.

Request Public Hearing on Ag District #1

Mr. Torrey requested approval to set a date, in consultation with the County Attorney, for a public hearing on Ag District #1 to be held prior to a Board meeting and to send out notifications

of the public hearing as appropriate. This request was granted on a motion by Legislator Ungermann, seconded by Legislator O'Grady, and carried. ***Prepare Resolution***

Youth Bureau

Monthly Report

Youth Bureau Director Linda Edwards entertained questions/comments on her pre-filed report for July 2015. Receiving none, She went on to tell Committee members that the Resource Allocation Plan had been approved by the State and the Youth Bureau has begun paying its agencies and billing the state for reimbursement. She added that Allegany County is one of the first in Western New York to receive that approval.

Cornell Cooperative Extension

Monthly Report

Cornell Cooperative Extension Executive Director Laura Hunsberger gave Committee members an update on Cooperative Extension activities, saying that now that the local County Fairs are over, the blue ribbon winners are preparing for the State Fair. She also noted that there will be a fund raiser on October 3, the "Run 4 Health" and Family Fur-iendly Fun day. This will be a fun-filled day of exploring new and exciting activities! The day will start with a 5K fun run/walk through Island Park and will include family-friendly activities including: Barnyard Olympics, Petting Zoo, and a Pet Parade. Following the race and awards, there will be a BBQ, educational booths, vendors, games, silent auction items, and music by Steel Door, 2-6 pm (BBQ free for racers, $10 for public and race supporters). Registration and/or sponsorship can be accessed at http://www.run4-health.racewire.com. Ms. Hunsberger told the Committee that Master Gardener talks will be showcased throughout the Fall. The Farmer Neighbor Dinner, sponsored by the Allegany County Cooperative Extension, Soil & Water Conservation District, Natural Resource Conservation Service, Farm Service Agency, & Farm Bureau will be held Wednesday, September 23, 2015, 5:30- 9 p.m**.** This is an opportunity for farmers, members of the community, local leaders and friends to come together to recognize and celebrate the tremendous role that agriculture plays in Allegany County. Ms. Hunsberger also noted that Complete the Streets funding for the Town and Village of Wellsville has been awarded. This is a five-year grant initiative that was awarded to the Southern Tier Wellness Partnership. It is geared to help municipalities in Cattaraugus and Allegany counties build the infrastructure needed to develop streets that invite physical activity. The grant has worked with many communities through the Southern Tier including Gowanda, Wellsville, Hinsdale, Cuba and Independence. The initiative will focus on helping municipalities pass a "Complete Streets" policy which asks transportation planners and engineers to consistently design and alter the rights-of-way with all uses in mind (including bicycle, pedestrian and persons with disabilities). The policy focuses on new construction, reconstruction and maintenance projects. Finally, Ms. Hunsberger said that as of October 1, 2015, the split from Cattaraugus County will be complete and new board members, logo, Facebook page and website will be activated.

CCE Program—Transition Update

Legislator Pullen told Committee members that, as noted by Ms. Hunsberger, the transition date for the official split between counties will be October 1, 2015. At that time,

Cattaraugus County will initiate its own association and Allegany County will cease providing services to Catt County at that time. September 22 will be the final combined Board meeting, he said. Subsequent to that, each of the two counties will have its own Board. Mr. Pullen went on to say that there will be some changes as there had been some efficiencies by having the two-county association. In order to continue the level of service for 2016, Cooperative Extension will need supplemental funding, or programs will need to be cut. There are still some legalities to be worked out with Cattaraugus County such as the building in Ellicottville as well as a wood lot that had been donated.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:20 p.m. following a motion by Legislator O'Grady, seconded by Legislator Ungermann, and carried

Respectfully submitted,
Cynthia Santora, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
September 2, 2015
SPECIAL MEETING
NOT APPROVED

Committee Members Present: K. Graves, D. Fanton, A. McGraw, T. O'Grady, N. Ungermann, C. Crandall

Others Present: M. Alger, M. Bird, B. Budinger, M. Burke, S. Burt, P. Curran, D. Decker, K. Dirlam, M. Dorrett, G. Hanchett, D. Healy, B. Heaney, R. Hollis, K. Hooker, C. Jessup, J. Johnson, K. LaForge, T. Miner, G. O'Connor, D. Pullen, B. Riehle, T. Ross, W. Rutkowski, R. Scott

Media Present: D. Donohue, *Olean Times Herald*; B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 10:32 a.m. by Resource Management Committee Chairman Karl Graves.

Rushford Lake Recreation District

Legislator Graves read a statement of purpose and a resolution requesting Rushford Lake Recreation District to Improve Public Access and Launching Fee Schedule. Approval was granted on a motion by Legislator Graves, seconded by Legislator Fanton, and carried. ***Refer to Board of Legislators Meeting***

Legislator Graves opened the floor for discussion giving an opportunity for visitors to speak.

Jim Johnson stated there are four fisherman who started this campaign. They would like the gate to be open 24 hours a day, 7 days a week and to have reasonable fees of $5 - $7. Mr. Johnson commented that he saw on social media that a plane landed on the lake and Rushford Lake District Board Chair Joseph Manna thought it was wonderful. There was no mention about invasive species. Mr. Johnson stated the resolution is a great idea, but he is concerned the same thing is going to happen in May. He suggested a memo of agreement or some sort of legal binding agreement with the Rushford Lake Recreation District Commissioners would be helpful so it would not happen again. Legislator Graves stated they were not going to let the issue go. They will keep working on it until a conclusion.

Glenn O'Connor discussed the financing behind the lake. Mr. O'Connor did some research and reported in 2009, a $654,000 grant was given to the Department of Environmental Conservation to stock the Lake with Trout. Mr. O'Connor stated every year Rushford Lake is stocked with $15,000 worth of Trout. Mr. O'Connor stated they have been locked out for the summer, but the gate will be open after the Labor Day Holiday. He doesn't want to see this happen again next spring. Mr. O'Connor noted Rushford Lake has tax exempt status. He stated by having tax exempt status they have to give back to the public. He noted he doesn't see how they are doing that.

Mark Dorrett stated he was an Allegany County resident, sportsman, avid fisherman, and hunter. He looks at this issue as a New York State taxpayer who also pays federal taxes. Mr. Dorrett stated the waterway belongs to all of New York State and since Federal tax money is used, it belongs to everyone in America. Mike Burke, clarified that the federal money Mr. Dorrett was talking about comes from the Core of Engineers. The Core of Engineers are

frequently called in to review the Rushford Lake Dam. Mr. Dorrett stated it is beautiful here and the County is blessed to have that waterway and the Genesee River. Mr. Dorrett stated Senator Cathy Young has been helpful in bringing tax dollars to Allegany County, which is one of the poorest counties. Mr. Dorrett stated in his community, people are building new homes. He stated taking Rushford Lake away is not going to benefit anyone. Mr. Dorrett wanted to thank the local representatives and Senator Young's office for trying to do the right thing. Mr. Dorrett reported he also contacted Congressman Tom Reed's office about the issue and asked them to join the fight. Mr. Dorrett asked the County Legislators to reach out to the Federal Government and Agencies for help.

Chairman Crandall stated he attended a July 17, 2015, meeting at Senator Young's office. The Commissioners from the Rushford Lake District, fisherman, and representatives from the Department of Environmental Conservation had a conversation on public access to Rushford Lake including the gate, fees, and the concern of invasive species. As a result, there was a discussion about a boat wash station and how other areas around New York State addressed the invasive species issue. At the conclusion of the meeting, The Rushford Lake Commissioners were going to address access to the lake by taking the gate down and getting the fees in line with other fees across the state. Senator Young explored the boat washing station and secured funds within two weeks. Chairman Crandall commented this resolution takes a good position for the County since it is the largest body of water and the County spends money on tourism. Rushford Lake can't have facilities limited and shut down. Chairman Crandall commented on the concern of property taxes for residents living around the lake. They are paying higher taxes, but Chairman Crandall wanted to clarify the County tax rate is the same for everyone. The rate is set when the budget is adopted. Equalization rates may vary from township to township. Rushford Lake residents have higher assessed property. Chairman Crandall stated they also pay an extra tax for being in the Recreation District. The rate is $3.30 per $1,000 for being within that District. Chairman Crandall noted he supported this resolution and it is a good position for the Board to take. Chairman Crandall added at the July 17 meeting, he was asked what the Board position is on this issue. He stated the Resolution would answer that question.

Legislator Ungermann stated he was from Cuba and wanted to make a comparison using Cuba Lake. He stated Cuba Lake completed a $1 million boat launch. The Department of Environmental Conservation was contracted to install it and since then, it has been used heavily. There is no charge. Legislator Ungermann stated airplanes land in Cuba Lake too. Cuba Lake tries hard to make it a public lake by expanding the area for swimmers, putting in a sewer to help keep it clean, and make improvements. Mr. Ungermann concluded by stating Cuba Lake is still public access.

Legislator Decker stated he also lives in Cuba. He has heard the comment that fisherman don't need to be out there at the crack of dawn. Legislator Decker stated when he is walking around Cuba Lake early in the morning around 4:30 a.m., cars are going over to the launch to put their boats in. Even in the winter, people are ice fishing early in the morning. Legislator Decker commented to restrict access to Rushford Lake is appalling, and he is 100 percent in favor of the resolution.

Legislator Pullen from District One, stated he drafted Chapter 78 of the Laws of 1981 as the attorney for Caneadea and the Town of Rushford. He looked at it from the town viewpoint as a success. He stated people get really agitated about their lake. He stated he understands the concerns here, but noted there are restrictions at any facility. Legislator Pullen stated he doesn't

know the answer. Legislator Pullen stated some facilities close at night because of vandalism. He stated he doesn't believe the fisherman and sportsman are the reason for the vandalism. Legislator Pullen stated there needs to be a balance and urged something be worked out. Mr. O'Connor commented by stating Cuba and Silver Lakes are either free or $5, and the lakes are open all the time. He stated he could not comment on vandalism but he has not heard about any incidents.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 11:04 a.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried.

Respectfully submitted,
Rebecca Scott, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
September 16, 2015
NOT APPROVED

Committee Members Present: K. Graves, D. Fanton, N. Ungermann, C. Crandall (Absent: A. McGraw, T. O'Grady)

Others Present: M. Alger, L. Ballengee, L. Bliven, C. Braack, H. Budinger, K. Dirlam, L. Edwards, B. Gamache, D. Healy, R. Hollis, K. Hooker, T. Hopkins, L. Hunsberger, G. James, C. Jessup, K. LaForge, J. Luckey, J. Nelson, R. Paulsen, T. Miner, B. Riehle, D. Root, R. Scott, S. Torrey

Media Present: B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Fanton, seconded by Legislator Ungermann and carried to approve the Resource Management Committee minutes of August 19, 2015.

A motion was made by Legislator Fanton, seconded by Legislator Ungermann and carried to approve the Resource Management Committee minutes of September 2, 2015.

County Historian

Legislator Graves noted County Historian Craig Braack did not have anything to report. Legislator Ungermann stated he had a question for Mr. Braack. Legislator Ungermann stated he had a discussion with Mr. Swift at a local Rod and Gun Club pancake breakfast. Legislator Ungermann stated Mr. Swift was concerned about keeping up-to-date with the history of Allegany County. Mr. Swift believes some information is not being recorded that ought to be. Mr. Swift wrote newspaper articles about the old County Home and Palmer Opera House and could not find a lot of information. Mr. Braack stated Mr. Swift did not come to the office. Mr. Braack asked Legislator Ungermann if Mr. Swift had suggestions to resolve his concerns. Mr. Ungermann stated he believed Mr. Swift wanted better record keeping. Mr. Braack asked what methods Mr. Swift wanted to use to do that. Legislator Ungermann responded Mr. Swift did not say anything about that. Legislator Ungermann stated Mr. Braack presents interesting programs, but some are not directly involved with Allegany County such as his presentations on Arlington Cemetery and Pearl Harbor. Legislator Ungermann noted he was just relaying Mr. Swift's concerns and Mr. Swift wonders if three days are enough to keep up with everything.

Soil & Water Conservation-Scott Torrey

Monthly Report

Executive Director Scott Torrey stated he just finished three projects. This was about $205,000 in completed projects. He is currently working on a Department of Environmental Conservation Grant. Mr. Torrey reported he met with Cuba Lake Manager Scott Barry to review their dredging project. He would like to try to do it during the winter. Mr. Torrey is currently working on getting a permit for this work. Mr. Torrey stated Rushford Lake is on hold until Rushford Lake Commissioners figure out what they are doing. Mr. Torrey spoke about a meeting with Shongo residents experiencing flooding to discuss stream gravel and debris

removal. It is in the beginning stages. Finally, Mr. Torrey stated he met with the Cuba Snowdrifter Snowmobile Club this morning to discuss erosion on one of their trails in Friendship.

Youth Bureau

Monthly Report

Director Linda Edwards highlighted two items on her Monthly Report. First, she participated in the Youth Fun Day at Cuba Lake sponsored by the Wellsville Legion and everyone had a wonderful time. Second, the youth leadership forum in Albany was cancelled in February. She will be taking two youth to Buffalo to attend the Western New York Region Forum on September 29, 2015.

Cornell Cooperative Extension

Monthly Report

Agriculture and Natural Resources Issue Leader Lynn Bliven highlighted areas featured in the Homes Grounds & Gardens newsletter. Ms. Bliven stated in the spring a Master Gardner's program was held with 10 participants. Master Gardeners have to volunteer hours; as a result, this year's class has created a Master Gardener Growing Talks. The program is once a month, and the first program was on Mushrooms. The second page of the newsletter talks about the fall pH clinics. Ms. Bliven spoke about the Ag Plastic Recycling Collection that was occurring today and on Saturday. Cornell Cooperative Extension partnered with the County Recycling Program Coordinator to offer this joint project. This project allows large farms to recycle and manage the agricultural bags used for silage or hay. Ms. Bliven stated the farmer neighbor dinner is next week and eighty participants have signed up, which is an increase from last year. At the end of the month, a program will be offered for vegetable growers. Ms. Bliven anticipates 10 to 12 farms will participate. Ms. Bliven stated an online beginning soils class will be offered with some hands on programs. The class focus is on soil fertility, enhancing production, and managing environmental concerns. Ms. Bliven announced the 4-H Achievement Year-End Dinner/Awards Program is on September 18, 2015. They are gearing up for a new program year on October 1, 2015. There will be displays around the County from the various clubs to promote programs and encourage participation. Executive Director Laura Hunsberger announced there was an article in the Cuba Patriot today about their upcoming fundraiser on October 3, 2015. Ms. Hunsberger stated this is the last committee meeting as a joint association. There will be a new logo.

Hazard Mitigation

Progress Update

Director Jeff Luckey stated the previous plan needs updating and there is a cost associated with it. The Mitigation Team has been meeting monthly since January. They have done some preliminary homework. Mr. Luckey stated the plan is due August of 2016. They would like the plan six weeks before the deadline, so it should be completed around June 1, or July 1, 2016. The team has reached out to a couple of vendors already to see if they can meet this deadline.

Homeland Security Pre-Disaster Mitigation Competitive Grant

Mr. Luckey asked for a resolution to accept and appropriate the Homeland Security Pre-Disaster Mitigation Competitive Grant for $90,000 to be used for the update of the County's

Multi-Jurisdictional Multi-Hazard Mitigation Plan. This is a 25% matching grant. The entire project cost is projected at $120,000 which includes the County's match of $30,000. The match can be either cash or in-kind. The funds should be appropriated as follows:

Total Grant Appropriation # A3655.447	$ 90,000
Local County Share in-kind services	$ 30,000
Total Project	$120,000
Revenue # A3655.3306.HZMT	$ 90,000

Mr. Luckey stated he applied for the grant in 2014. On August 25, 2015, he received notification he was awarded the money. Legislator Ungermann asked if the County share has been budgeted. County Administrator Mitch Alger stated it does not need to be budgeted because the individuals' time on the Team would be considered in-kind. They will keep track of their time. Legislator Ungermann asked how long is it until the plan needs to be updated again. Mr. Luckey stated every five years. The five years start the day the plan is adopted, so this plan is stretched out to six years. Mr. Luckey stated it has been a good investment in the past. It has brought back $4 million in projects including $3 Million in Federal money because it is part of the plan and the projects were approved. Chairman Crandall and Legislator Healy asked if it was directly tied to the plan and that they couldn't get the money without the plan. Mr. Luckey stated that is correct. Legislator Graves asked if there has been discussion on updating the plan on an annual basis instead of waiting five to six years. Mr. Luckey stated the Team meets annually to review what has been done and what has changed. That is a requirement of the plan. Legislator Graves asked if it was a good idea to assign someone to periodically update it during the year. Chairman Crandall stated the County would probably run into other expenses other than just maintaining the plan. Mr. Luckey stated the plan has been adopted by all the towns and villages and the colleges are incorporated in the plan. Mr. Luckey stated it is not just a County plan; it is an inclusive plan. Chairman Crandall asked if the County will be able to reach the $30,000 in-kind. County Planner Kier Dirlam stated they are trying to cover that and the Team is keeping track of everything. Approval was granted on a motion by Legislator Fanton, seconded by Chairman Crandall, and carried. ***Refer to Ways & Means***

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:22 p.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried

Respectfully submitted,
Rebecca Scott, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
October 21, 2015
NOT APPROVED

Committee Members Present: K. Graves, T. O'Grady, N. Ungermann, C. Crandall (Absent: D. Fanton, A. McGraw)

Others Present: M. Alger, L. Ballengee, C. Braack, H. Budinger, S. Burt, D. Healy, R. Hollis, K. Hooker, L. Hunsberger, C. Jessup, K. LaForge, T. Miner, D. Pullen, B. Riehle, T. Ross, R. Scott

Media Present: B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Ungermann, seconded by Legislator O'Grady, and carried to approve the Resource Management Committee minutes of September 16, 2015.

County Historian

Legislator Graves noted County Historian Craig Braack did not having anything to officially report. Legislator O'Grady asked about the Allegany County Museum Tour. Mr. Braack replied it was very successful this year. This was the second year of the Tour, and the average number of people attending from the reports he has reviewed so far, was fifteen to nineteen at each place. He noted the average last year was three to four.

Soil & Water Conservation

Monthly Report
Legislator Graves reported Executive Director Scott Torrey was not able to attend, but he submitted his written report for review. In his report, Mr. Torrey stated he is working on finishing projects and field work before winter. The Cuba Lake permit application should be finished next week. Next week, they have a meeting with the Department of Environmental Conservation in Hume to look at flooding issues with Rush Creek. They were awarded two grants in round twenty-one of the State's Ag Non-Point Source Grant funds. The total State funding awarded was $734,678, with a total grant project cost estimated at $1,034,120. The timber harvest has begun on the C. Horner Lot. The Ag District number one update will be completed, and ready for review by the Farmland Protection Board. He continues to work with the Alma Rod and Gun Club in repairing their dam. They will be receiving funds from Cathy Young's office to help with repair costs. Finally, the Town of Allen is finishing the installation of a box culvert that was funded by Federal Emergency Management Agency (FEMA).

Youth Bureau

Monthly Report
Legislator Graves stated Director Linda Edwards was attending a conference, and submitted her written report for review. Legislator Healy reminded everyone the SADD conference is Friday, October 30, 2015.

Cornell Cooperative Extension

Monthly Report

Executive Director Laura Hunsberger highlighted the Ag Plastics Recycling Project. She stated it was very successful, and they collected two and a half tons of plastic. Legislator Ungermann asked what kinds of plastics were collected. Ms. Hunsberger replied it was everything from irrigation tubing, to black plastic used in vegetable production, to nursery pots. Legislator Ungermann asked about the baler silage bags, and noted they have to keep the plastic clean. Ms. Hunsberger stated yes they did collect those as well. Mr. Ungermann asked who he would contact if he had plastics he wanted to recycle. Ms. Hunsberger stated if anyone is interested in the recycling project, to contact Tom Parmenter for recycling dates. Chairman Crandall asked if they get any money for recycling these plastics. Ms. Hunsberger stated no not to her knowledge.

Ms. Hunsberger announced there will be a Small Berry Conference next week in Bath, New York. This conference is a joint effort with Steuben County. Legislator Pullen added he knows some berry growers who are planning on attending the conference. Legislator Graves asked if the conference would be appropriate for a small gardener. Ms. Hunsberger noted this conference is for people who are using it as a business to make money, and not so much for the homeowner who has berries. Chairman Crandall stated he saw berry hanging baskets in Wyoming County, and wondered if there were many of those. Ms. Hunsberger stated it was more of an “eye catcher,” but she has seen some greenhouses using gutters to grow berries in order to maximize space.

Ms. Hunsberger highlighted other upcoming events and programs. She noted there is a 4-H program for the holidays. There is also a cooking contest where the majority of the products used in the contest have to be produced in New York. She also highlighted an upcoming fundraiser, and annual meeting. Legislator Pullen added the annual meeting is November 10, 2015, and the New York State Director of Extension will be there. He noted it will be an important meeting, and he would like to see the Legislators attend the meeting.

Legislator Ungermann stated he had some comments directed to Agriculture and Natural Resources Issue Leader Lynn Bliven, who was not present at the meeting, regarding the Farmer Neighbor Dinner. He noted the purpose of the Farmer Neighbor Dinner is to get to know one another. He noted there were no introductions, and it was hard for someone to speak to someone else if they did not know who they were. For example, it would be hard for someone from Empire Cheese to talk to farmers who may provide milk to the company because they would not know who they were in the room. Legislator Ungermann noted he had personally asked certain individuals to attend. He stated he spoke with Ms. Bliven before the dinner about these people attending, and told her they were prepared to talk about their business. At the dinner, they did not have an opportunity to do that. He also stated vendors were not allowed to speak. He noted some vendors spent $250, and did not have the opportunity to speak. He believes they have a paid a premium, so they deserve a few minutes to speak. He is concerned they may not come back. Finally, he noted the speaker had a lot of important information. He was concerned about people hearing the speaker because they had a hard time hearing her, and they were towards the front of the room. He was disappointed with the event. Legislator Graves stated the sound system was deficient, and asked if it belonged to Cornell Cooperative Extension. Ms. Hunsberger said no, and they will bring one next time. Chairman Crandall noted it was a nice event. Legislator Graves commented the food was good. Ms. Hunsberger stated she would pass the comments along to Ms. Bliven.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:17 p.m. following a motion by Legislator O'Grady, seconded by Legislator Ungermann, and carried

Respectfully submitted,
Rebecca Scott, Secretary to the Clerk of the Board
Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
November 18, 2015
NOT APPROVED

Committee Members Present: K. Graves, D. Fanton, T. O'Grady, N. Ungermann, C. Crandall (Absent: A. McGraw)

Others Present: M. Alger, L. Bliven, H. Budinger, S. Burt, P. Curran, D. Decker, K. Dirlam, L. Edwards, L. Gooch-Christman, L. Gridley, S. Grusendorf, G. Hanchett, D. Healy, K. Hooker, L. Hunsberger, C. Jessup, C. Knapp, K. LaForge, J. Luckey, D. Pullen, B. Riehle, D. Root, T. Ross, R. Scott, R. Sobeck-Lynch, S. Torrey

Media Present: B. Quinn, *Wellsville Daily Reporter*

Call to Order: The meeting was called to order at 1:00 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Fanton, seconded by Legislator O'Grady, and carried to approve the Resource Management Committee minutes of October 21, 2015.

County Historian

Legislator Graves stated County Historian Craig Braack was unable to attend the meeting because he was giving a presentation to the Red Hat Ladies in Wellsville.

Soil & Water Conservation

Monthly Report

Executive Director Scott Torrey stated he was finishing projects. He met with the Department of Environmental Conservation (DEC) in Hume to look at the flooding issues on Rush Creek. He noted the meeting was positive, and it looks like they will allow them to work on the gravel bars to give the stream more capacity. Legislator Fanton asked who was going to take the gravel out. Mr. Torrey responded possibly the Department of Public Works and some of the local towns. Chairman Crandall asked if they were going to go all the way to the river. Mr. Torrey stated right now they are going to work around the bridge where they are having flooding issues. There was some discussion about Rush Creek and Rushford Lake. Mr. Torrey clarified it is Rush Creek in Fillmore that comes down from Short Tract, not the Rush Creek that goes into Rushford Lake.

Mr. Torrey said they are continuing the timber harvest on the C. Horner and Weir lots. He said they have begun the contracting process of getting the funds from Round 21 of the Ag Non-Point Source Grant Program. He said several farms would like to begin construction in the spring. Mr. Torrey said the Agricultural and Farmland Protection Board have started the process of reviewing and updating the Farmland Protection Plan. Legislator Ungermann asked about the status of the permit for Cuba Lake. Mr. Torrey stated he believes they were submitted a week or two ago. Mr. Torrey included pictures in his monthly report showing a pack barn since Legislator Ungermann asked about it at a previous meeting. Mr. Torrey noted the pictures are from the Bainbridge Farm in West Almond, New York.

Mr. Torrey reported the Ag District #1 review and update has been completed. The Agricultural and Farmland Protection Board met on November 13, 2015, and approved the

update. Mr. Torrey requested a resolution to hold a public hearing on December 14, 2015. The request was approved on a motion by Legislator Ungermann, seconded by Legislator Fanton, and carried. ***Prepare Resolution*** (Resolution to come off the Floor at the November 23 Board meeting.)

Youth Bureau

Monthly Report

Director Linda Edwards stated she didn't have much to report. She is busy, and is working on billing. She stated she is waiting on two agencies to submit their paperwork. Legislator Graves asked how much she is waiting for. Ms. Edwards stated it is about $6,000 to $7,000. Legislator Ungermann asked what the Rural Youth Justice Team does. Ms. Edwards stated it is working with Probation, other youth serving agencies, and criminal justice agencies to reduce placements of juveniles. She represents the Youth Bureau on this team, and they work on the front end of keeping individuals out of probation, jail, and placement. She added it is a team approach to address issues before they get to more serious levels. Legislator Ungermann also asked about the Police Department and Sheriff's Office Halloween crackdown patrol. Ms. Edwards said it was a Driving While Intoxicated (DWI) patrol. She receives grant money from the State to do crackdowns around specific holiday times. They had a patrol the night before Halloween, which resulted in one arrest. Legislator Graves commented it is an important patrol. Legislator Healy asked if there were any accidents. Ms. Edwards stated she was not aware of any during the Halloween patrol. Ms. Edwards said the next patrol will be the Wednesday night before Thanksgiving.

Cornell Cooperative Extension

Monthly Report Executive Director Laura Hunsberger

Agriculture and Natural Resource Issue Leader Lynn Bliven reported upcoming program dates for their winter programs. She stated there will be a Southern Tier Crop Congress in January. This program offers Department of Environmental Conservation (DEC) pesticide and Certified Crop Advisor credits. Ms. Bliven stated the Penn York Ag Expo in February will be a joint program. This program will focus on soil health and cover crops. Ms. Bliven also mentioned the Second Annual Growing Produce for Auction Markets on February 3, 2015. She noted thirty-two to thirty-four Allegany County Farms participated in the Centerville Auction this year. The program will focus on packaging, pricing a product, and food safety. Chairman Crandall asked about the Centerville project, and how many of the farms are Amish and non-Amish. Ms. Bliven said the auction is run by the Amish, but the selling and purchasing is open to anyone. She says she works with seven English farms out of a total of thirty-eight farms on her list; the rest are Amish farms. She mentioned a majority of the purchasing is done by non-Amish owned road-side stands. She also reported three retail markets purchase from them on a regular basis. Legislator Decker asked if local retail such as Giant and the market in Fillmore are buying from this market. Ms. Bliven believes some markets participate, and noted there is interest. She added larger retailers want to ensure the farms are certified, and have a food safety plan in place.

Ms. Bliven talked about the Beef Producers meeting in February. It will discuss health programs, changes in antibiotic use, and veterinarian relationships. There will be a rural landowner workshop in March focusing on forestry. It will emphasize agricultural businesses. Legislator Ungermann asked about the Agri-Forestry. Ms. Bliven discussed the benefits of maple syrup, mushroom production, and woods-cultivated products. The woods-cultivated products have higher value. Legislator Ungermann commented as much as they want to do this

and promote this, there are other people who are trying to squash it. He said some towns are posting roads all year round, so anyone over eight tons can't use them. It causes a problem of getting the product to the market. Legislator Ungermann stated his understanding is Consolidated Local Street and Highway Improvement Program (CHIPS) money is to bring a road up to State specification. He noted half an inch of oil and stone on a road is not up to State specifications. He said it is a double edge sword. They are trying to get people to be profitable and earn a living, and they have others who want to knock it down. Ms. Bliven stated she understands that, and they are trying to educate consumers and residents about the value of agriculture. They are working on developing a brochure, updating the Farmland Protection Plan, and updating the Right-to-Farm Law.

Ms. Bliven stated they are working with Alfred for a grazing program in the summer for a three-day conference. Ms. Bliven said she is also working with them on disease management plots, where local research will be done in our County by two faculty members. Legislator Ungermann asked if Ms. Bliven received his message from the last meeting. She replied she did.

Executive Director Laura Hunsberger stated she would distribute the *Extension Connection* to all of the Legislators. She stated 4-H has fourteen new clubs starting in conjunction with the twenty-first century afterschool programs with ACCORD. Ms. Hunsberger said they also have twenty-seven new 4-H members in addition to the new clubs. Ms. Hunsberger highlighted the Horse-less Horse Program in the *Extension Connection*. Ms. Hunsberger stated they are dealing with their housing situation.

Attorney/Client Session

The Committee entered attorney/client session at 1:23 p.m. on a motion by Legislator Graves, seconded by Chairman Crandall, and carried. The Committee exited attorney/client session at 1:38 on a motion by Legislator O'Grady, seconded by Legislator Ungermann, and carried.

Hazard Mitigation

County Planner Kier Dirlam represented the Hazard Mitigation Team, and gave an update on the request for proposal. The Hazard Mitigation Plan was originally approved in 2011. Emergency Management and Fire Director Jeff Luckey applied for a grant, and received $90,000 to update the plan. In September they received a quote from a company that they were hoping to piggyback on with Warren County. After looking at the Proposal, they realized Warren County had asked for more things than what they were asking. So, the Hazard Mitigation team will have to put out their own request for proposal. As a result, there has been a delay. The Team wants to ensure they are doing it right, and not jeopardizing the funds. He thinks they may have something to approve at the next meeting, so the Team can move the project forward.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:41 p.m. following a motion by Legislator Fanton, seconded by Legislator O'Grady, and carried

Respectfully submitted,

Allegany County Board of Legislators

RESOURCE MANAGEMENT COMMITTEE
December 16, 2015
NOT APPROVED

Committee Members Present: K. Graves, D. Fanton, N. Ungermann (Absent: A. McGraw, T. O'Grady, C. Crandall)

Others Present: M. Alger, L. Bliven, C. Braack, H. Budinger, S. Burt, N. Carnes, D. Decker, K. Dirlam, L. Edwards, M. Evans, L. Gridley, S. Grusendorf, G. Hanchett, D. Healy, R. Hollis, K. Hooker, J. Hopkins, L. Hunsberger, C. Jessup, H. Kottwitz, K. LaForge, T. Miner, D. Pullen, B. Riehle, D. Root, T. Ross, R. Scott, R. Sobeck-Lynch, S. Torrey

Media Present: No media present.

Call to Order: The meeting was called to order at 1:03 p.m. by Resource Management Committee Chairman Karl Graves.

Approval of Minutes

A motion was made by Legislator Fanton, seconded by Legislator Ungermann, and carried to approve the Resource Management Committee minutes of November 18, 2015.

County Historian

County Historian Craig Braack stated in the last few weeks he has been given access to 16-millimeter movies of farming scenes around Andover in 1940. He reported he is going to Rochester on Friday to see if they can transfer them onto a DVD. Mr. Braack noted he doesn't know how much it would cost, but he has a little money leftover. He added he is very excited about the movies.

Soil & Water Conservation

Monthly Report

Executive Director Scott Torrey distributed his monthly report. He stated they are finishing paperwork and end-of-year items. They finished a fencing project, milk house waste system, and a bedded pack barn. He reported he was contacted by the State Emergency Services a couple of weeks ago about an application they had submitted to repair the Genesee River in Belfast. They originally applied for funds under Hurricane Sandy, but they were going to move it to a more recent disaster to have a better chance of getting it funded. He is working with them to update the total cost and expenses. Legislator Ungermann asked where the project is in Belfast. Mr. Torrey reported it is just before the senior citizen's home, about one hundred feet from State Route 19. Mr. Torrey said they are finishing the stream bank stabilization project on Van Campen Creek in Friendship for the Cuba Snowmobile Club. Mr. Torrey reported yesterday the Governor announced they are releasing a Southern Tier Agricultural Industry Enhancement Program. This consists of $25 million for Southern Tier Farms in eleven counties to do agricultural projects. Allegany County will receive $1.5 million, and the Soil and Water Office will distribute the money. He said farms can apply January 19, 2016. Legislator Ungermann asked what kinds of projects the money will go towards. Mr. Torrey said it is wide open, but they have to meet certain requirements. Legislator Fanton asked what the ratio is. Mr. Torrey replied he believes if it is under $50,000 it is a ninety/ten percent split. If it is over $50,000, it is a seventy-five/twenty-five percent split. The maximum

amount is $100,000. Finally, he said they have $3,326,220 in State Grant funds for different projects. When adding in the cost share of these grants, the estimated total value of these grants is $4,432,938.

Agricultural District One

Mr. Torrey reported the Agricultural District One was approved by the Farmland Protection Board, and went through a public hearing on Monday. Mr. Torrey requested a resolution to continue Agricultural District One with modifications as requested. The request was approved on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried. ***Prepare Resolution***

Youth Bureau

Monthly Report

Director Linda Edwards pre-filed her monthly report, and asked if anyone had any questions. She said she received dates for the Youth Leadership Forum in Albany. It will be February 8, to February 9, 2016. One youth board member is committed, and she is waiting to hear from the other three. Once she knows who can attend, she will complete and submit the paperwork. Ms. Edwards noted there is money in the budget for them to attend. Legislator Ungermann asked about the Driving While Intoxicated and bicycle safety presentation to the 4-H Club in Pike. Ms. Edwards said they requested both presentations because two kids have their driver's licenses. This presentation also generated a request for her to speak to the Pike Firemen and Junior Fireman. Legislator Ungermann also asked about the quarterly Environmental Strategies Committee meeting. Ms. Edwards said it is a Partners for Prevention Allegany County (PPAC) committee, and they work on things such as keeping propane tanks locked up, strategies to look at Driving While Intoxicated, and alcohol and drug related issues on a County wide basis. It is public relations and programs to distribute educational information.

Cornell Cooperative Extension

Monthly Report

Agriculture and Natural Resource Issue Leader Lynn Bliven stated they are trying to finish projects. She reported Tom Parmenter is working with some dairy acceleration projects, and trying to complete them before the end of the year. She noted there has been an influx in soil testing because of the warmer weather. Executive Director Laura Hunsberger stated she will distribute the Annual Reports from her association as well as from the Cornell Vegetable Program in the Legislators' mailboxes. She said they purchase services through the Cornell Vegetable Program which is about six to eight specialists in different areas. She noted there were a number of photos from programs in Allegany County including the Good Agricultural Practices (GAP) Program and the High Tunnel Program. Legislator Pullen asked if there is a downside to the mild weather. He noted he saw some daffodils coming up. Ms. Bliven said there are always some tradeoffs along with opportunities. Legislator Graves asked about the insect population. Ms. Bliven said they are adaptable creatures. She noted they can have some impact, but it is hard to know the short-term effects.

Attorney/Client Session

The Committee entered attorney/client session at 1:20 p.m. on a motion by Legislator Fanton, and seconded by Legislator Ungermann, and carried. The Committee exited attorney/client session at 1:41 p.m. on a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried.

Cornell Cooperative Extension Building

Legislator Graves made a motion to declare the building as surplus property, no longer needed for public use, and approve to sell it through public bid, seconded by Legislator Fanton, and carried. ***Refer to Ways & Means***

Appointment to Soil and Water Conservation District Board

The County Farm Bureau requested that the Board consider appointing Marvin Covert as the County Farm Bureau appointee on the Soil and Water Conservation District Board for a three-year term commencing January 1, 2016, and expiring December 31, 2018. The request was approved on a motion made by Legislator Fanton, seconded by Legislator Ungermann, and carried. ***Prepare Resolution***

Appointment to the Fish and Wildlife Management Board

The Chairman of the Board plans to reappoint John Lewis of Wellsville, New York, as the Sportsmen's Representative Member and Zoltan Szabo of Wellsville, New York, as the Sportsmen's Alternative Representative Member of the Fish and Wildlife Management Board, for a two-year term commencing January 1, 2016, and expiring December 31, 2017. There was discussion about having John Lewis as the Sportsmen's Alternative Member and Zoltan Szabo as the Sportsmen's Representative Member. Legislator Ungermann made a motion to table the appointments, seconded by Legislator Fanton, and carried.

Appointments to Region 9 Fish and Wildlife Management Board

The Chairman of the Board made the following appointments to the Region 9 Fish and Wildlife Management Board to serve a term of two years, commencing January 1, 2016, and expiring December 31, 2017.

Legislative Representative Member	Alternate Legislative Member
Dwight R. Fanton	Aaron M. McGraw

A motion was made by Legislator Graves, seconded by Legislator Fanton, and carried to sponsor a resolution, confirming the Chairman's appointments. ***Prepare Resolution***

Good of the Order

Legislator Pullen stated that since the Allegany County Cornell Cooperative Extension is disassociated from the Cattaraugus County Cooperative Extension, a new Constitution has been drafted and prepared. In this Constitution at least two representatives from the Board can be designated to the Allegany County Cornell Cooperative Extension Board. He is willing to

continue on the Cornell Cooperative Extension Board, and the Chairman can appoint another Legislator.

Adjournment

There being no further business to come before the Committee, the meeting was adjourned at 1:51 p.m. following a motion by Legislator Fanton, seconded by Legislator Ungermann, and carried.

Respectfully submitted,
Rebecca Scott, Secretary to the Clerk of the Board
Allegany County Board of Legislators

Report and Recommendation

Of the

Allegany County Agricultural & Farmland Protection Board

Regarding the review of Agricultural District # 1, located in the Towns of Allen, Birdsall, Caneadea, Centerville, Granger, Hume, New Hudson and Rushford Prepared in accordance with Section 303-a of Article 25AA of the NYS Agriculture and Markets Law.

The Agricultural District review process was administered by the Allegany County Soil and Water Conservation District, The Agricultural and Farmland Protection Board, Real Property Tax Department, and NYS Department of Agriculture and Markets.

November 13, 2015

AGRICULTURAL DISTRICT # 1

A report to the Allegany County Legislature
From
The Agricultural and Farmland Preservation Board
November 13, 2015

In accordance with section 303-a (2)(b) of Article 25 AA, The Allegany County Agricultural and Farmland Protection Board has prepared this report for submission to the Allegany County Board of Legislators. The report considered the following four issues, regarding the status of farming in Agricultural District #1, and used this information as basis for its recommendation.

1) THE NATURE OF FARMING AND FARM RESOURCES WITHIN THE DISTRICT.

The overall status of farming within Agricultural District #1 is strong with dairy and cash cropping being the primary operations. The soils capabilities within the region are very good due to the existence of prime as well as significant quantities of important highly productive land. The proposed additions to the District are compatible in terms of location and potential productivity.

There are presently 729 landowners enrolling 55,203.68 acres in the district. There are 88 active farms among this group. Of the 55,203.68 acres, 26,135.14 acres are in active farm land and 14,751.70 acres are owned by farmers. 11,383.44 acres are rented from non farm owners for cropping. This results in a 2,492.05 acre increase since the last review of Agricultural District #1.

Agricultural District #1 consists of dairy, beef, cash grain, cash vegetable and sugar bush operations. There is not a feed mill in the immediate area. Feed is coming in from mills out of the area rather than local feed mills and much of the parts and machinery purchasing is occurring out of the area rather than locally. There are a few farm supply stores and large milk plants, which are thriving near the District. These plants are still heavily purchasing local whole milk. The County's only large animal veterinary clinic is located in the District. Cash cropping of grains, corn silage and some vegetable crops on the prime soils and production of hay remains a viable farm activity. Recently a produce auction has been established by the Amish community in the District to help market produce that is grown in the District and surrounding areas.

The prime and important farmland within the area of Agricultural District #1 is being preserved. There is relatively little loss of the prime and important farmland to abandonment or development pressures. Some farms have gone out of business in the District; these farms are now being farmed by larger farms. This trend is evidence that the landmass of the district is being efficiently utilized by fewer yet better managed and more profitable operations. There is, however, the occasional location of a home or municipal infrastructure on farmland. The extent of this type of activity in Agricultural District #1 is minimal and has not significantly affected the nature nor circumvented the originally intended purpose for the Districts.

2) THE EXTENT TO WHICH THE DISTRICT HAS ACHIEVED ITS ORIGINAL OBJECTIVE.

Agricultural District #1 was originally created to serve to maintain the agricultural vitality by and successfully continuing to:

- Encourage the continuation of farming and investment for maintenance of competitive farming.
- Counteract the premature retirement of farmland and the loss of viable soils. To help maintain an important source of local food supply
- To maintain an important source of open space and rural character of these areas.
- Protect farming operations by prohibiting local regulations that could restrict normal farming practices.
- To have a positive economic effect for the county and protect farm operations and processors.
- To provide the land use framework that Town boards can utilize to direct development into compact patterns which can efficiently be served with public facilities.

Agricultural District #1 has achieved its original objectives. Lands enrolled in the District have been afforded a high degree of protection from municipal and residential pressures. There are no significant conflicts between farm operations and economic development and there have not been any nuisance lawsuits. The Agricultural District has for the most part met these original objectives and there aren't many instances of residences that are in conflict with agriculture. The larger operations are presently utilizing the available prime and important farmlands as well as significant tracts of marginal land in support of their operations within the Agricultural District #1 to the extent that there is very little loss of prime and important farmland to abandonment or development pressures. There is the occasional location of a new business, municipal facility or housing on prime land however the extent of this type of development in Agricultural District #1 has not significantly affected the nature or circumvented the purpose for which the Districts were originally created.

3) THE DEGREE OF COORDINATION BETWEEN LOCAL LAWS, ORDINANCES, RULES AND REGULATIONS THAT APPLY TO FARM OPERATIONS IN THE DISTRICT AND THEIR INLFUENCE ON FARMING:

Local laws, ordinances, rules and regulations exist in concert with the presence of the Agricultural Districts. Right to Farm Legislation further legitimizes the existence of and right to perform farm operations. Change and growth are welcomed but not at the expense of Agriculture. Due to the rural nature of the communities and the surrounding landscape, there are very few, if any, instances where local law, ordinances, rules or regulations impact Agricultural District #1. This is due to the underdeveloped nature of the County and the areas in this agricultural district. Implementation of any future rules or ordinances would undoubtedly receive a high level of scrutiny and most likely seek to balance the proposed regulation with the realities of farming. When economic development is guided and growth controlled via planning, the shortsighted sacrifice of irreplaceable farmland can be avoided.

Nonagricultural development within the Agricultural District is monitored and regulatory guidelines for assessment of impact are followed. The installation of infrastructure has in all instances appropriately considered and avoided significant negative impacts to the Districts. Areas which have requested removal from the District and or changed land use have not threatened the nature or well being of the District. The positive effect of a well managed Agricultural District is of paramount importance to the County. The rural character of Allegany County is defined by our largest industry, Agriculture the Agricultural Districts further this important prime industry.

4) THE EXTENT TO WHICH COUNTY AND LOCAL COMPREHENSIVE PLANS, POLICIES AND OBJECTIVES ARE CONSISTENT WITH AND SUPPORT THE DISTRICT:

In 2013 the Allegany County Board of Legislators adopted a County wide Comprehensive Plan that gives a vision statement and solid commitment to agriculture in the county… "Agriculture holds the spirit of open space and heritage of working the land in Allegany County. It is seen as an economic engine and preserver of rural character, conserving while utilizing, producing food and fiber, and a lifestyle that reflects the industry of our citizens." Included in the County Comprehensive Plan and adopted by the County are the Allegany County Agriculture Development and Farmland Enhancement Plan that reads as its number one recommendation to reaffirm the importance of agriculture and its attributes in Allegany County. By its adoption the county recognizes the future of Allegany County's agriculture and farmlands depends upon the improving the profitability and competitiveness of the agricultural sector and providing needed safeguards and supports for agriculture. Agriculture is recognized as consisting of much more than just the farm production sector. It also included a vast array of farm input and service providers to farmers as well as the processing and marketing of farm produce. The county has stated they will reaffirm their commitment to enhance opportunities for growth and development of agriculture and agribusinesses and the preservation and protection of viable farmlands in Allegany County. This plan serves as a blueprint to be used in retaining farmland and building an economically strong local agricultural industry for future generations. Acceptance of the plan by the Allegany County Legislature will continue to be vital to securing future state funding for the implementation of recommended actions to preserve Allegany County farmland. In addition, this 8 year review of Agricultural District #1 and the past consolidation of this district have given producers the opportunity to be included or removed from the district. The District exists in harmony with County comprehensive plans policies and objectives. To a great extent, the expansion of the District, the number of farms and the number of enrolled acres indicates that the District is meeting the purpose for which it was created.

5) RECOMMENDATIONS TO CONTINUE, TERMINATE OR MODIFY THE DISTRICT.

It is the recommendation of the Allegany County Agricultural and Farmland Protection Board, that Agricultural District #1 be approved for continuation and that said District be modified as requested by the participating landowners and consolidated into Agricultural District #1.

RA-114 (rev. 1-08)

New York State
Department of Agriculture and Markets

AGRICULTURAL DISTRICT REVIEW PROFILE

DISTRICT IDENTIFICATION

County:		District No.:		
Allegany County		1		
Town(s) in District: Towns of Allen, Birdsall, Caneadea, Centerville, Granger, Hume, New Hudson and Rushford				
No. acres in district: 55,203.68	No. acres in farms:[1] 26,135.14		No. acres owned by farmers: 21,992.39	No. acres rented by farmers: 11,383.44

AGRICULTURAL DATA ANALYSIS

A. Since last review, number of acres in District — Added: 2,492.05 — Deleted: _

B. Since last review, number of acres in farms — Increased: — Decreased: 10359.27

[1] Number of acres in farms represents the sum of acres owned by farmers and rented by farmers.
